RIELLO ELETTRONICA
 **riello ups**

Riello Elettronica and Riello UPS

RIELLO ELETTRONICA IS AN INTEGRAL PART OF THE RIELLO INDUSTRIES GROUP. THE RIELLO UPS BRAND IS NOW A WORLD LEADER IN THE UNINTERRUPTIBLE POWER SUPPLIES MARKET.

Founded in 1986, Riello Elettronica initially manufactured switching power supplies for IT applications, before moving into the manufacture of uninterruptible power supplies (UPS).

In 1995 Riello Elettronica took on its present structure, becoming a parent company for the rest of the Group's businesses. Thanks to Riello UPS, Riello Elettronica is today one of the four largest manufacturers of uninterruptible power supplies in the world, and our product range includes solutions for powering the smallest desktop PCs or the latest super computers used within the most advanced data centre operations. In fact, Riello UPS power solutions can be found almost anywhere a continuous electrical supply is critical.

Most of the manufacturing takes place across plants in Legnago (Verona) and Cormano (Milan). Italy is our country of origin, yet Riello Elettronica's strong grounding in the European and Asian marketplaces is fundamentally important to procurement ensuring rapid, efficient and above all monitored selection of the highest quality electronic components used in the manufacturing process.

Whilst we operate with the strength of a single global strategy, each local subsidiary is easily adaptable to the demands of their individual markets in order to best meet the needs of their dynamic client bases.

Areas / Scope

RIELLO UPS OFFER A COMPLETE RANGE OF SINGLE AND THREE PHASE UPS FROM 400 W TO 6.4 MW, FOR APPLICATIONS RANGING FROM HOME OFFICES TO LARGE INDUSTRIAL PLANTS TO DATA CENTRES.

Data centre Area

- Data centres
- Server farms
- Telecommunications and IT
- Banks and insurance companies

Industry Area

- Oil & Gas
- Power Generation, T&D
- Water treatment
- Instruments and process monitoring
- Emergency systems

Emergency Area

- Hospitals
- Railway stations
- Stadiums and sports centres
- Shopping centres
- Schools
- Public buildings

Transport Area

- Railway stations
- Airports
- Toll gates
- Marinas

SoHo Area

- Entertainment systems
- Personal computers
- xDSL connections
- POS systems

E-medical Area

- Back up of auxiliary power supply systems
- Operating theatres
- Hospital services

Riello UPS Ltd

RIELLO UPS LTD IS THE UK SUBSIDIARY OF RIELLO UPS RPS S.P.A

Riello UPS Ltd commenced trading in March 2003, originally under the 'Riello Galatrek Ltd' name. By 2006, the company had become Riello UPS Ltd to reflect the massive growth of the Riello UPS brand within the UK market.

In March 2009, Riello UPS Ltd moved into newer premises of 27, 500 Sq ft in order to accommodate the continuing expansion of the business and develop extensive training and testing facilities. The company became the first UPS manufacturer in the UK to be accredited with ISO9001 Quality, ISO 14001 Environment, OHSAS 18001 Health and Safety and SAFEContractor Certified.

Riello UPS Ltd mission and aims

At the heart of our mission statement is the aim to achieve the number one Customer Service position within the UK power protection market. This has remained unchanged for many years, and through we frequently review and assess it, it still remains the very core of our business. It's an approach that stands us out from our competitors and has brought its own opportunities.

We combine cutting-edge technology with our comprehensive and un-equalled range of support options to offer real value. Internally, the systems and processes in place enable us to work efficiently and more importantly to our clients, flexibly. It's this level of commitment, consultative approach and 'service' ethic from Riello UPS Ltd that enables our customers to achieve the ultimate in power protection for their business.
