

Energy Management Policy

1. General Statement

Riello UPS Limited and Riello UPS Ireland Limited acknowledges the importance of energy consumption for successfully meeting the organisation's operational objectives and operates to support this.

We operate an energy management system to the ISO 50001:2018 standard.

In addressing this statement, the Company will:

- Set and review energy objectives and target, making available the information and resources required in order to achieve these targets.
- Satisfy our legal requirement and other requirements related to our energy efficiency, energy use and energy consumption.
- Continually improve our energy performance and our energy management.
- Encourage the commitment of energy efficient products and services that impact our energy performance.
- Encourage any design activities that consider our energy performance.

This Policy has been approved and authorised by:

Name: Leo Craig
