Riello UPS Announces Merger With Constant Power Services & Powertecnique

Riello UPS Ltd, the UK subsidiary of the globally renowned Italian UPS manufacturer RPS SpA, officially announces its merger with Constant Power Services and Powertecnique.

This strategic merger, which will take effect from Wednesday 1 January 2025, aims to enhance service offerings, expand customer support, and drive innovation in the uninterruptible power supply (UPS) industry.

Integrating the strengths, expertise, and resources of Constant Power Services and Powertecnique into the already well-established Riello UPS brand will create a unified entity that is better positioned to meet evolving customer needs.

Upon implementation of the merger at the start of next year, the number of Riello UPS employees will more than double from its current figure of just under 90 to more than 180, with engineering resource specifically more than trebling.

While in addition to the 27,500 square foot Riello UPS headquarters in Wrexham, North Wales, the unified company will enjoy a truly nationwide presence thanks to its two offices in the south of England, plus another facility in Scotland.

The merger underscores Riello UPS's unwavering commitment to providing exceptional service, cutting-edge technology, and reliable power protection solutions to clients across the UK and beyond.

Leo Craig, Managing Director of Riello UPS, commented: "We are excited to unite Constant Power Services and Powertecnique under the Riello UPS Ltd banner.

“Riello UPS is already renowned for commitment to customer service, from our 5 year extended warranty on all UPS up to and including 3 kVA and industry-leading bespoke maintenance plans with guaranteed emergency response and fix times, through to our Certified Engineer Training Programme and Approved Service Partner Scheme.

“All these qualities remain unchanged. Indeed, this merger is a significant milestone that will enhance our ability to deliver even stronger service and innovative solutions to our customers. We are confident that this strategic move will create new opportunities for major growth and success in the future.”

Benefits Of The Merger For Customers:

1. **Enhanced Service Capabilities** – the merger brings together a wealth of technical knowledge and experience from all three companies. This combined expertise ensures that customers will receive unparalleled support, from initial consultation and installation to ongoing maintenance and emergency response.
2. **Expanded Product Portfolio** – customers will benefit from an expanded range of high-quality UPS systems and power solutions. By leveraging the innovative technologies and comprehensive product lines of Riello UPS Ltd, Constant Power Services, and Powertecnicque, we can offer tailored solutions that meet the specific needs of diverse industries and applications.
3. **Improved Customer Support** – the merger enhances customer support infrastructure, providing a more robust and responsive service network. Customers will experience streamlined communication, quicker response times, and increased availability of technical assistance.
4. **Stronger Market Presence** – the merger strengthens our market presence and competitive edge in the UK market. Our combined resources and capabilities enable us to deliver more value to our customers, reinforcing our position as a leader in the UPS industry.

- ENDS -

Editor's notes:

All three companies involved in the merger (Riello UPS Ltd, Constant Power Services and Powertecnicque) are wholly owned UK subsidiaries of Italian UPS manufacturer RPS SpA, part of the wider Riello Elettronica group. The unified entity – Riello UPS Ltd – will become the group's sole UK subsidiary.

About Constant Power Services

Since the late 1980s, Constant Power Services Ltd has excelled in providing support to businesses seeking quality uninterruptible power supplies, installation, and aftercare. We appreciate the complexities of a specification, the time constraints on finalising a project and understand that it can all change in a second.

From 700 VA through to 800 kVA Uninterruptible power supplies, containerised 252 kW units for hire or purchase, to generators and switchgear, our turnkey offers and solutions are tailored to your requirements.

Working with our customers requires great communication, respect, and ownership of a task, a solution, or in some cases a problem to fix. This is something Constant Power Services prides itself

on and that is why support is integral to our business and communication, respect and ownership form our internal values, as they come so naturally to us.
